About Modhus

UAB Modhus is a Lithuanian construction and renovation company working in Lithuania and Scandinavia.

We support private clients, companies, contractors and project partners with clearly defined construction, renovation and finishing works.

Our approach is practical: we focus on clear work scope, agreed responsibilities, structured communication and reliable execution of the agreed tasks.

We work with

- Private clients
- Companies and commercial property owners
- General contractors
- Project managers
- Scandinavian partners

Main Work Areas

New Construction and Renovation

Construction, renovation and refurbishment works for residential, commercial and public-use buildings.

Interior Finishing

Wall, ceiling and room preparation, finishing works, painting and related interior installation tasks.

Drywall and Suspended Ceilings

Drywall partitions, walls, niches, suspended ceilings and preparation for final finishing.

Flooring

Floor preparation and floor covering installation for residential and commercial spaces.

Facades

Facade renovation, insulation, finishing and related exterior works.

Roofs

Roof renovation, installation and related exterior construction works.

Selected Projects

Administrative WC Room Renovation — Vilnius, Lithuania

Interior renovation, suspended ceilings, HPL partitions, finishing and coordination of related installation works.

Care Home Construction — Sweden

Construction and finishing works carried out as part of a larger project scope.

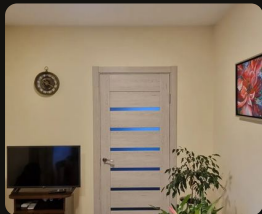

Kitchen Furniture Installation — Sweden

Kitchen furniture installation and related finishing works.

Modular Timber Classroom Building — Kaišiadorys, Lithuania

Timber structure and modular building works.

Residential Premises Renovation

Interior renovation and finishing works.

Facade Renovation — Telšiai, Lithuania

Facade repair, preparation and exterior finishing works.

Cooperation

Modhus can join projects as a contractor or subcontractor for clearly defined work scopes.

We are most useful when the project has:

- a defined work scope;
- drawings, photos or quantity information;
- planned start dates and timelines;
- clear responsibilities between parties;
- a need for practical execution and communication.
